## In Action Brought Against Continental Realty Company.

## Law Suit Is Said to Have Been Started to Wreck the Company.

By Associated Press.

Cincinnati, Oct. 12.—Another chapter has been added to the suit filed in the federal court in Covington two years ago by J. B. McLean and Kiah Killbourne against the Continental Realty company, of Wilmington, Del., involving about \$170,000 worth of valuable timber lands in Perry, Kuonit, Breathitt and Letcher counties, Kentucky. Late last night Attorney Kelley filed an affidavit together with a copy of an order issued by Judge J. M. Cochran, restraining the receiver of the company, temporarily from acting.

Attorney Kelley, who is secretary of the Continental Realty company, alleges that A. H. Patton and C. W. Fleenor, claiming to be receivers of the Breathitt circuit court, have forcibly taken possession of the office records and documents of the realty company and are attempting to take possession of all the company's property. The suit in the Breathitt circuit court, it is alleged, was instituted by Walter L. Taylor, as a result of a conspiracy entered into by him with the defendants, C. L. Little, D. B. Bridwin and G. M. Gourley for the purpose of wrecking the Continental Realty company and of obtaining enormous attorney fees and costs upon it.

Little was sued individually by the company for misappropriations of funds amounting to \$110,000. He was sued jointly with Taylor on alleged bogus contracts for \$49,000. These suits are now pending in Richmond, Kentucky.

Constantinople, Oct. 12.—The rebellion against Turkish rule in the province of Yemen Arabia, shows no signs of subsiding and whenever a pitched battle is fought the rebellious Arabs seem to be victorious over the unwilling Turkish conscripts sent to subdue them. The casualties of the Arabs are estimated at two hundred.

## PATRIOTIC CUBANS

Turn Down the Grafting Scheme of General Castillo.

## DO NOT WANT SPOILS

Since Their Long Fight Was Solely to Free Their Native Land.

Havana, Oct. 12.—Confidential agents of the Jave Cuban government have reported to Governor Taft that the meeting of rebel leaders at the home of General Castillo last night was not for the sole purpose of bidding each other farewell, as the participants alleged. Castillo addressed his associates urging that Governor Taft be called on to declare his attitude towards the men who are responsible for overturning the Palma government and declared that the provisional government would have made slow progress but for the assistance of the rebels. Therefore, he argued, Mr. Taft should show his gratitude by casting the moderates from office and substituting for them men who had fought for good government. In spite of the fact that he was the host, Castillo did not obtain support for his demand. Generals Fenara and Asbert made patriotic speeches, saying that they fought for their country and not for spoils. This sentiment was generally endorsed, and Castillo was voted down. Several speeches were then made applauding Governor Taft. President Roosevelt and the United States for their generous course toward Cuba.

The provisional government is unable to make an accurate estimate of the conflicting reports regarding last night's meeting at the residence of General Castillo.

## INSPECTOR SHAFFER

Testified That Oil Sold in Findlay Came From the Refinery at Lima.

## Court Adjourned at Noon

Out of Respect to Late Judge Burkett.

By Associated Press.

Findlay, Oct. 12.—After a two hours session today, the trial of the Standard Oil company of Ohio for conspiracy against trade was adjourned until Monday. The adjournment was agreed upon between counsel out of respect to the memory of former Judge Burkett, whose funeral takes place this afternoon.

The proceeding today consisted of the taking of testimony of three witnesses summoned by the prosecution. Evidence of the county recorder, title was established in the Standard to a certain lot in the city of Findlay, in which is located their local oil distributing station for the retail trade. Oil Inspector E. S. Shaffer testified that the oil the Standard sold at retail in this locality was obtained from the Solar Refining company at Lima. At Upper Sandusky also in his inspection territory, they received the oil from the Standard refinery at Cleveland.

J. H. Scott, local agent for Joseph Seep purchasing agency, coupled the greater part of the session showing the method of purchasing crude oil from producers. He said that the oil he purchased and paid for by Seep's checks was transferred to the order of P. S. Trainer, of Oil City, Pa.

## Trial Opens.

Findlay, O., Oct. 12.—With the understanding that court would adjourn at noon today until Monday the trial of the Standard Oil company of Ohio for conspiracy against trade was begun by the state putting County Recorder Bloom, of Hancock county, on the stand.

Mr. Bloom identified the deed record of the county from which Prosecutor David read to the jury, records of certain deeds transferring land to the Standard Oil company of Ohio.

## Oil Inspector Testifies.

B. C. Shaffer, a local attorney and deputy oil inspector, was the next witness for the state. He described the manner of testing oil.

## Oil From Lima.

The Standard, he said, had a distributing plant located in Findlay on the land identified by the deed record previously read as the property of the Standard company. The company has four tanks there for that number of grades of oil and one for gasoline. This oil is retailed in tank wagons. Mr. Shaffer said this oil came from the Solar Refining company at Lima.

At Upper Sandusky, the witness said, the Standard received its oil for retail from the Standard refinery at Cleveland. On cross examination by the defense, Mr. Shaffer said his territory as inspector, covered several surrounding counties and that he inspected the oils of all companies.

Findlay, O., Oct. 12.—Questioned again by the prosecution, Mr. Shaffer said that all of the shipments from the Solar company came in Union Tank Line cars.

J. H. Scott, of Findlay, an oil buyer for Jos. S. Seep, was the next witness called by the prosecution. He said his office was in the same room with the Buckeye Pipe Line company's office in Findlay and that the latter company had telegraph lines running into the oil fields. In response to a series of questions by Mr. Phelps, the witness described the manner in which he purchased crude oil of producers. The producer was paid for his oil by check on Joseph Seep. The oil was transferred to P. S. Trainer. He had facilities for buying oil in the pipe lines of the National Transit company in New York and Pennsylvania; in the Indiana Pipe Line companies place in the Eureka Pipe Line company of Putsburg, the Cumberland Pipe Line

### THE GEM CITY Is Regarded as Rail- roaders' Siberia.

Policemen Seem Over Anx-  
ious to Arrest Men For  
Holding Crossings.

#### NO NOTICE IS TAKEN

Of the Railroad Man's Ina-  
bility to Keep Trains on  
the Move.

Engineer Who Had no Right  
to Move His Engine,  
Taken Into Court.

The city of Dayton, which is has the  
pretty nickname of the "Gem City,"  
is about to have its latter name chang-  
ed to "Siberia," by the railroad men,  
by reason of their occupation, are  
compelled to come in contact with the  
"blue jaw" regulations and despotic  
officials who enforce its ordinances.  
The men on the railroads are begin-  
ning to fear and dread Dayton worse  
than they do a "lap" order or bill  
that has to be "doubled." If a red  
block brings a freight train to a stop  
in the "Gem City" there is trouble in  
the air instantly. If a derail is open  
and an engineer cannot act on a sig-  
nal to go ahead without going into the  
ditch he is liable to be pulled off of  
his run and forced to appear in Day-  
ton police court to answer to a charge  
of blocking a crossing and if he is  
found guilty on that charge he is im-  
mediately separated from a good sized  
portion of his month's salary, which  
is, under present conditions, very hard  
earned.  
Only a few days ago an engineer of  
the C. H. and D., who resides in this  
city, was notified to appear in police  
court in Dayton, on the charge of un-  
lawfully holding a crossing. He knew  
that he had a couple or three cross-  
ings, with a long "drag," a few days  
ago, but he also knew that, even if  
he had the signals from those in  
charge of the train to do so, it would

have taken from four to seven min-  
utes to have shoved the train back  
and out the crossings. He was stop-  
ped, by reason of a defective inter-  
locker which had a red block staring  
him in the face and had he obeyed the  
signals which a policeman claims he  
received to go head, he would have  
put his engine in the canal at Dayton  
instead of in the round house at Lima.  
Nevertheless, he was forced to leave  
his run and appear in police court in  
Dayton and when he arrived there he  
was met by a wise(?) policeman who  
told him that if he would plead guilty  
the judge would be lenient with him.  
The Lima man, however, refused to  
plead guilty and after the case was  
laid before the court in its true light  
he was discharged and the case was  
dismissed. Then the policeman who  
had caused his arrest claimed that the  
dispatcher for the road had told him  
the Lima engineer was to blame for  
the delay at the crossing.  
Policemen, and others, should re-  
member that the railroad man has  
more than his share of "grief" on the  
road without being dragged, unneces-  
sarily, into police court.

Three Thugs Hold up and

Thief Known as Blackie  
Fired the Shots Which  
Were Fatal.

Toledo, Ohio, Oct. 12.—A desperate  
encounter between policemen and  
three hold up men took place early to-  
day at Main and Front streets, east  
Toledo. One of the policemen, Joseph  
Schlagheck, was fatally shot and two  
of the bandits were hurt. The third  
man, known as Blackie, escaped and  
almost the entire police force is  
searching for him.

Chris Peterson, Niel Meyers and the  
man known as Blackie held up F. H.  
Carnell, an insurance agent and after  
nearly choking him to death robbed  
him of \$45.

He notified the police and Patrol-  
man Schlagheck and Police Dunne  
started in pursuit and came upon  
them shortly afterwards. As soon as  
the bandits saw they were pursued  
they began to run and drew revolvers  
and began to fire.

The first shot took Schlagheck in  
the chin knocking him completely  
around as he whirled three more shots  
struck him in the back. Dunne  
drew his weapon. His first shot broke  
Myers' wrist. Then Dunne grabbed

The Lima College eleven will mix

will journey to Heidelberg with the ex-  
pectation of winning from that team,  
although should they lose to the  
strong varsity eleven with a creditable  
score against them, it will be readily  
seen that the college has made ad-  
vancements in athletics, as well as in  
the college departments. It will be  
remembered that the Tiffin bunch held  
the doctors of the O. M. U. to the very  
credible score of 13 to 5 on last Sat-

The Lima College is very enthusi-

to buy. We can fit you perfectly whether you are of normal or un-  
usual build. Our prices range from \$20.00 down to the point

## FAIR WEATHER SOUTH SIDE ITEMS

### Predicted for Tomorrow Afternoon.

Prospects Bright that the Pacing Stake Will be Finished.

### EIGHT HORSES READY

For the Word and George G. Will Not Make an Attempt.

Nationals Still Command Even Money Among Local Fans.

Fair weather and warmer is the weather prediction for tomorrow, when at two o'clock the unfinished pacing stake will be raced at the Lima Driving Park grounds.

There are eight speedy side-wheelers in this event for \$500 and Billie Foster, in the Sweeney string, is tipped as the winner. May Fern, however is held as very good while Sigma C. and Sir Adair are also to be considered. The race promises to go to a full five heats before a winner is determined.

It is said by horsemen that the track will be in fine condition tomorrow and could even be raced over today.

There will be a small charge of 25c made at the gate to-morrow as well as a grand stand charge, and no complimentary tickets will be recognized of any nature. Every person going out is expected to tender a mite towards promoting the great sport which was marred by bad weather last week.

George G. Will Not Go.

George G. will not, after all, get an opportunity to go for a better trotting record, and Mr. Tanner is a very much disappointed man. George G. has taken a slight cold since being at the local track, and is in no fit condition for a speed trial. He will be carefully nursed today and tomorrow and shipped to Cleveland Sunday morning.

SHOOT THE LADIES.

The Opening Gun of the Fall Campaign Has Been Fired.

We anticipate a strenuous engagement and our Generals have planned accordingly. Never before has one house shown such a complete stock of Millinery and Ladies' and Children's ready to wear garments. Our buyers have looked through all the leading lines and all that is new and bright has been gathered together in one grand stock, which is now ready for your inspection.

We take considerable pride in making so strong a statement because we believe you will appreciate what it means to you. You naturally desire to see a complete stock and you will understand that it is only because of the large volume of our business that we are able to place before you styles which are EXCLUSIVE, which will not be found elsewhere in Lima.

To those who appreciate things not COMMONPLACE, we say, without reservation, we can please you. Our ambition to continue as the Leading Millinery and Ready to Wear Garment House in Lima spurs us to our best efforts, and that these efforts are appreciated by the trade in general is demonstrated most eloquently by the new customers coming to us daily. Come and see us. Light & Conner, down on the square.

GANZEL A RED

Grand Rapids Owner Has Agreed to Terms.

Chicago, Oct. 12.—John Ganzel will play first base for the Cincinnati club next season. This was practically assured this morning when he held a conference with Garry Herrmann, owner of the Reds. Detroit wanted him at all costs, but Herrmann raised his bid and also took care of the obligations Ganzel is under to the New York club.

"No, I have not signed yet," remarked Ganzel. "But I will probably do so. There is only a slight hitch and that will be fixed up before the week is over. The Cincinnati club has tendered me a liberal salary, with a long contract. I am satisfied."

WHI Draw Big Salary.

It is stated that the salary offered Ganzel was \$5,000 a year, while Herrmann has also agreed to pay the \$3,000 that Ganzel paid New York for his release. It is understood that Ganzel was offered a three-year contract. There are several other deals on tap. In fact, this series has been productive of discussions of trades, but nothing has so far materialized, with the exception of the Ganzel deal.

The efforts which have been made  
in the past few weeks since the repub-  
lican fourth district congressional  
convention met and nominated Audi-  
tor J. C. Rosser, of Shelby county.

Candidate J. C. Rosser, in the fol-  
lowing signed statement sent the  
Times-Democrat shows he will make  
the race to the end, and that no with-  
drawal will occur, which will necessi-  
tate the committee taking action on a  
new candidate.

Strong efforts were made by one of  
the local factions of the republican  
party to have Rosser withdraw, leav-  
ing the vacancy to be filled by the con-  
gressional committee, which was be-  
ing "worked" to endorse an independ-  
ent. This deal has fallen through it is  
said, because of the hardness of the  
regular nominee who will go down the  
line to defeat before the Hon. Wm. E.  
Touvelle, of Mercer county, demo-  
cracy's worthy candidate.

The Fourth district congressional  
question has therefore been virtually  
solved before the balloting has begun.  
As predicted by Editor Dustman, of  
that good republican organ, The To-  
ledo Blade, "the Fourth will send Mr.  
Touvelle to congress with an increas-  
ed majority over that given in recent  
years." Mr. Rosser pens the following  
in his statement that he stays:  
"The numerous press reports rela-  
tive to my withdrawal as a candidate  
for congress in the Fourth congres-  
sional district, on the republican tick-  
et is without foundation. I wish to as-  
sure my friends that I shall remain  
in the fight to the end."

### Fish and Game Commission by Public

More Care Is Now Taken in Preserving the Finny

### VIOLATING THE LAWS

Means Almost Instant Arrest and Prosecution Nowadays.

Good Work of Colonel Porterfield in Supplying Ponds.

Of much interest at this time when several thousand bass have just been placed in McBeth's lake by the State Game and Fish Commission is the following editorial which appeared in the Columbus Dispatch regarding the good work of Col. Porterfield and the manner in which the people of the state now regard the game laws.

The fact that the citizens of the state of Ohio are fast learning to cooperate with the fish and game commission both in the matter of propagating and protecting fish and game, is not only an encouraging sign of the times, but speaks volumes for the good work thus performed on the part of Col. J. C. Porterfield, state game warden, who from the first has impressed upon the public mind the necessity of observing the laws of the state if the streams are to continue to yield a supply of fish and the forest and fields to "pour forth their brown inhabitants." And yet, while greater respect is shown for the laws today than ever before, it still requires the utmost vigilance to save the fish and game from extinction.

Hundreds of persons throughout the state voluntarily give aid to the commission in the matter of propagating fish and game, and especially during this season of the year is it made manifest, when the commission sends forth its cars laden with the product of the fish hatcheries but, sad to relate, hundreds of others invade the forest and streams, seemingly in an effort to undo all the good work thus performed. But the time has come when an emphatic halt will be called upon this species of vandalism, for those who have come to realize the full meaning of the law are at all times ready and willing to report on all cases of the law's violation.

According to Colonel Porterfield, who made a thorough study of every thing pertaining to the department over which he presides, strict observance of the fish and game laws would afford the people all the sport they desire during the open seasons, and thus discourage the establishment of private game and fish preserves for profit—a system by the way, that smacks of landlordism entirely foreign to the American idea. And when the people come to realize that the fish and game laws of the state were made solely in their behalf—in order to give representatives of all classes opportunity to indulge their penchant for sport—a more wholesome respect for the laws will be shown, with the result of stream and forest replete with fish and game—Columbus Press.

**MORGAN FORGOT TO LIFT HIS HAT.**

By Associated Press.

New York, Oct. 12.—The strains of "The Star Spangled Banner" reverberated through the White Star liner. There were fully one thousand persons there, including J. Pierpont Morgan. The steamship Oceanic had docked and her passengers had disembarked, including Mrs. J. Pierpont Morgan and her daughter.

Among the passengers were Henry G. Amers and his English band of forty-five pieces. Mr. Amers is here for a tour of the United States. Mr. Amers circled his musicians about

him on the pier and played "The Stars and Stripes Forever."

Everybody came to attention, including Mr. Morgan, and when the piece was finished the pier resounded with applause. Even Mr. Morgan clapped his hands together, but only one or two claps, because Mr. Morgan had brought three of his daughters to the pier to meet their mother and sister, and Mr. Morgan, being in a happy frame of mind, was playing "Ring around the rosie" with the two youngest girls, one of whom was a pretty picture in white.

Then the band began "The Star Spangled Banner," and instantly every man was standing at attention, with his hat off, excepting Mr. Morgan, who was playing something that looked like "London Bridge's Falling Down" with the children. The customs inspectors had ceased to examine baggage. Deputy Collectors Coney and Bishop stood shoulder to shoulder with uncovered heads. Steamship whistles on the river seemed to respect the tune by not blowing. But Mr. Morgan was still playing games.

By this time a few eyes were on Mr. Morgan's hat and reporters were taking notes that the hat on Mr. Morgan's head while the band played "The Star Spangled Banner" was a black square topped affair.

A man noticed the note taking and quickly walked to the financier's side and whispered something, which was in effect:

"Morgan, take your skypiece off. The band is playing the national air, and the gang is on your see?"

Mr. Morgan looked up from the children, hat and a broad, proud smile came over his face, his hat came off, he waved it in the air, danced a few steps to the delight of the children, and then looked real angry when he saw he was being watched.

A Woman's Awful Suffering from Neuralgia.

No Relief Until She Tried Dr. Williams' Pink Pills.

Then She Gained in Weight the Pain Ceased and She Has Been in Perfect Health Ever Since.

Do not seek relief from suffering simply, but free your system from the disease which is the cause of your suffering. That is the message which a former victim of neuralgia sends to those who are still in the grasp of that most acutely painful of nervous diseases. Hot applications, powders that deaden the senses and others that reduce the heart action may cause temporary relief but the pain is sure to return with greater intensity. Neuralgia has been aptly described as the cry of a starved nerve. In Neuralgia the nerves need nourishment and the only way to nourish them is through the blood.

Mrs. Evelyn Creusere, who has a beautiful home at 811 Boulevard West, Detroit, Mich., suffered for years with neuralgia until she tried this tonic treatment and was cured. She says:

"My trouble began about six years ago and I did not rest as I should have, but kept up about my many duties. After a time I became so weak I could not do any work at all. I had severe backaches and such dreadful headaches in the back part and top of my head. My eyes were easily tired and at times I saw black spots before them. I consulted several doctors but without the slightest benefit. The neuralgia pains were so intense that my hair turned white."

"I lost continually in weight and strength and was almost in despair when a friend here in Detroit recommended Dr. Williams' Pink Pills, saying that they did her so much good when she was all run down. So I tried them according to directions and soon began to feel relief. At the end of three months I had gained ten pounds in weight and had no more trouble with my nerves. I have been in perfect health ever since and can heartily commend Dr. Williams' Pink Pills."

Mrs. Creusere is a prominent member of the Maccabees and has served as president of the "Woman's Relief Corps." Her story may be absolutely depended upon and it should bring hope to every nervous sufferer. Dr. Williams' Pink Pills actually make new blood and are therefore a specific for anemia in all its forms and valuable in the treatment of rheumatism, general debility and most forms of stomach trouble. On account of the dependence of the nervous system upon the blood they are useful in nervous disorders and have cured nervous debility, neuralgia, headaches and even such severe troubles as partial paralysis, St. Vitus' dance and locomotor ataxia. Proof of cures will be sent on application.

Dr. Williams' Pink Pills are sold by all druggists, or sent postpaid, on receipt of prices, 50c per box, six boxes for \$2.50, by the Dr. Williams' Medicine company, Schenectady, N. Y.

At Bank of McDonald, Pa., has a 4 barrel pumper in No. 3 John H. Magee farm, section 19, just south of the hamlet of Elmore.

In Clay township, Klauser and others have a duster in a test on the J. W. Stephenson farm, in the northeast quarter of section 21.

In Richland County.

In Worthington township, Richland county, near Butler, Wright & Levering have drilled in well No. 1 on the S. Simmons farm, section 23, and have a duster. The Frederickstown Oil & Gas company has one of the same kind on the H. O. Swait farm, just north of the Butler oil producers.

In Jefferson township, same county, the Logan Gas company is drilling No. 1 on the Stoffer farm, section 14, and the Jefferson Oil & Gas company is drilling No. 1 on the August farm, section 15. Greenwood and others are at work on a test well in section 22.

The Logan Gas company has just drilled in a 2,000,000 cubic foot gas well in No. 2 on the Barnison farm, in section 29, Madison township, Richland county.

## Sensation

## In New Orleans.

Cooper, the young philanthropist who with his strange new medicine has been exciting much interest from newspapers all over the country, now has New Orleans as his headquarters. The sale of his medicine has reached enormous proportions and the wonderful cures which he has effected have been reported in the columns of the local press. The fact that his medicine is sold in such large quantities has led to the conclusion that his medicine is no longer a novelty, but a common household remedy. **PROMINENT MEN INDICTED TODAY.**  
By Associated Press.  
Muskogee, I. T., Oct. 12.—W. J. Martin, Jr., a former employee of the Dawes commission, and M. F. Dunleavy, a prominent real estate man, were indicted today by the federal grand jury charged with the theft over a year ago of the Creek Indian rolls. They were released on bonds of \$1,000 each. The maximum penalty is a fine of \$2,000 or imprisonment for three years at hard labor.

The rolls were stolen from the government offices. The present law which was introduced by Representative Murphy at the last session of congress, makes it a felony to have in ones possession a copy of any Indian roll.

## Jobs are Hunting the Men in the City.

Refinery Is Working all Mechanics Who Can Be Found.

## BUSIED ON TANK CARS

Which are Delivered to the Union Tank Line for Service.

Locomotive Works, Cigar Factory and Others are on the Rush.

On reliable authority it is stated that never before at this season was this city more entitled to the name, "Working Lima."

Men are no longer hunting jobs, but the jobs are seeking the man. The Solar refinery is one of the busiest places in the city and mechanics are being sought from far and near. In addition to the regular employment as a refinery, the car shops are working full hours on good pay, and boiler-makers are in strong demand.

This rush is expected to keep up all winter long, as tank cars can not be turned out fast enough. All of these are delivered as soon as completed to the Union Tank Line, for us immediately. Of course the refinery here has no knowledge of where the cars go after they once make delivery, but Illinois is getting the bulk of them.

In this field it is possible to load a tank train every five hours, and shipments are being made from the fields there to the Whiting, Ind., refinery. The oil exceeds in volume the ability to ship it, and tank cars at a premium.

The Union Tank Line also has use for these cars all over the country they being used for refined as well as crude, and the demands for refined are increasing steadily at this season of the year. The Solar is now working over 750 men, drawing pay twice the month.

The Lima Locomotive Works is also taking on men as fast as they can be secured, and its pay roll is around 1,200 males; at the Deisel-Wemmer company over 225 males draw pay weekly; the C. H. & D. shops are running its regular quota at this season; while the Lake Erie & Western, save for the old coach and car departments have on their full list. In the train service every road in Lima is working as many men as can be found.

The prospects for good times were never better in Lima than this year, and the beauty of it all is, that most of the army of the employed are heads of families, and home owners in the city.

## WOMAN'S ARREST PROVES COSTLY.

Newark, N. J., Oct. 12.—In a suit for false imprisonment against L. Bamberger & Co., department store owners of this city, Mrs. Elizabeth Wads worth obtained from a jury in the supreme court circuit a verdict of \$1,000 damages. She sued for \$15,000, naming her husband as a co-plaintiff.

Miss Minetta von Linden, a detective employed in the store, testified that Mrs. Wadsworth and her step-daughter, Florence, were in the place on the afternoon of April 19. Florence, the detective said, put several articles in a bag she carried, appropriating them from different counters. Mrs. von Linden escorted the girl and her mother to the office of the store and there the girl was searched. The goods were found in her bag. The detective denied that she dragged Mrs. Wadsworth to the elevator or called her a thief. Detective Sergeant Carroll said he escorted Mrs. Wadsworth and her daughter to police headquarters and then to the first precinct police court, where Judge Sweeney questioned them and allowed them to go. At that time, Carroll said, Mrs. Wadsworth said her name was Smith.
